MISSION STATEMENT

Our purpose is to improve the health care for residents of Murray County by promoting wellness and community education, and to assist with the capital improvements and equipment purchases to further enhance patient care.

CURRENT PROJECT

The MCMC Foundation is currently working to raise funds to be able to bring two Outdoor Fitness sites to Murray County. These would be located in Slayton and Lake Wilson and would provide a free, accessible option for those aged 13+ to improve their health while spending time outdoors.
